

Skate Ontario

Data Specialists Update – March 2017

Amalgamation Impact

As amalgamation quickly approaches it should be noted that there will be no significant changes for the competitions that are occurring in April 2017.

Those individuals that have been assigned to these competitions will continue their duties as they normally would. The equipment required will be transported in the same manner as it has in the past. Last, but not least, results for competitions will follow the same process that it currently does.

In Northern Ontario, arrangements have been made for the use of computers and printers for Island Skate and Let's Skate.

Introductory & Level I Promotions

Data Specialists seeking either Introductory or Level I promotions are asked to follow the same channels that are currently being followed, within their section, until further communication states differently.

Competitions & Training Needs

A survey will be emailed to all Data Specialists in May 2017. This survey will encompass questions that will aid us in identifying training needs as well as with staffing competitions for the 2017-2018 season.
