All aspiring Skate Canada coaches begin NCCP training at the Learn to Skate level teaching Skate Canada's flagship program, CanSkate. The coach pathway is represented below.

Prior to attending the CanSkate course, participants will be required to complete an online pre-course training module through Skate Canada's eLearning site. This prepares candidates with a base level of knowledge leading into the course. Details regarding this pre-course will be sent to all participants by the Skate Ontario Course Administrator after successfully registering for a course.

The 3-day CanSkate course introduces participants to the basics of coaching, which includes an introduction to Long Term Athlete Development, Teaching and Learning, Communication, Biomechanics, Ethics, and all components of the CanSkate program. Throughout this course, candidates will partake in an interactive learning environment and will reflect on their experiences as a skater and how to successfully transition into a coaching role. Based on the following learning objectives, the CanSkate course will prepare coaches to:

- Recognize factors that affect learning and relate to the Learn to Skate athlete.
- Relate CanSkate skills to the three biomechanical principles introduced.
- Evaluate CanSkate Skills- recognize errors and strategies to correct the error.
- Identify all components of a CanSkate program and lead a program with confidence.

Club Coach: CanSkate Coaches are only eligible to coach the CanSkate Program.

Upon successful completion of all requirements, participants will receive a CanSkate "In-Training" status and may then register as a [Skate Canada Professional Coach](#) to begin coaching at the CanSkate level only.
