

Skate Ontario Registration Process Update – June 18, 2019

In consultation with coaches and work with Uplifter, Skate Ontario has created a new event registration procedure to address the shortcomings of the previous registration process.

For the 2019/20 season, Super, STAR 1 – 4 and Synchro Series event registration will begin with a 'Coach Pre-Registration' where coaches will be asked to indicate the number of athletes they have in various category groupings and rank the top-five events they want their skaters to participate in.

After gathering information from the Coach Pre-Registration and looking at the data from a big picture point-of-view, the objective of the new registration process is to ensure athletes get into the competitions they want.

The result of completing the Coach Pre-Registration process is that all coaches' athletes will be able to compete at one event. This will decrease costs for athletes and reduce travel time for coaches.

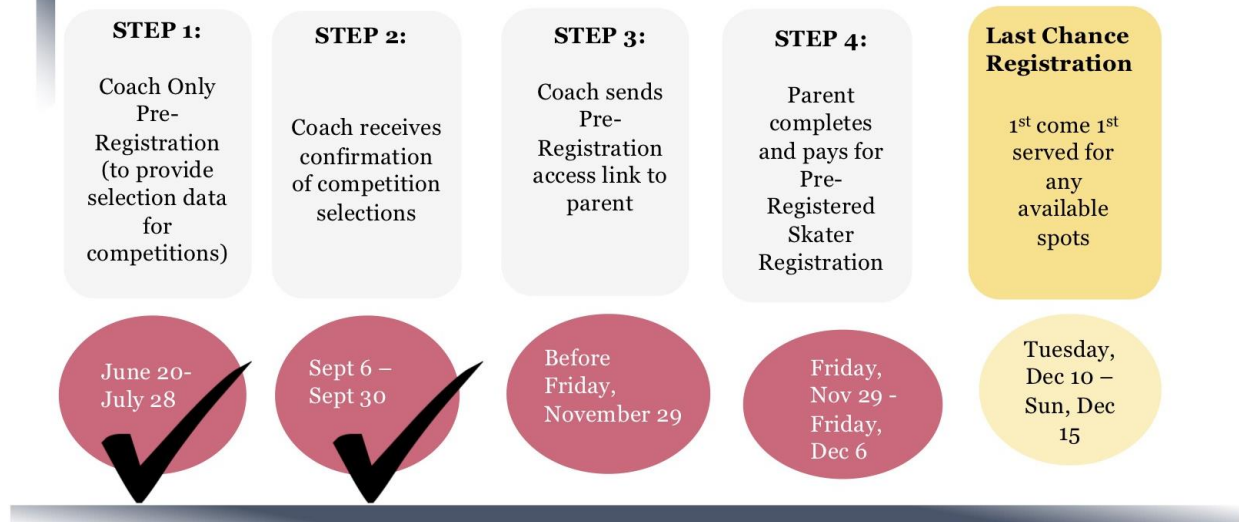

Please note this does not include Sectionals series – Super Series, STAR 1-4 Series and Synchro Series only.

You spoke, we listened. The only way to eliminate the registration experience from last year is for coaches to complete the Pre-Registration.

Example Timeline – Super Series Brampton

Important Information about the Updated Registration Process

- As of **Tuesday, June 18, 2019**, information, instructions and FAQ will be available for coaches, parents and clubs on the Skate Ontario website ([click here](#)).
