

Concussion Policy

Policy Statement

Skate Ontario (“SO”) is focused on ensuring the wellbeing and safety of all SO participants. SO recognizes the potential severity of a head injury and the commitment and intent behind research to manage concussions. SO is committed to educating those involved with SO, creating awareness to help prevent injuries and appropriately managing any suspected concussions and diagnosed concussions.

Scope

This Concussion Policy (“Policy”) will be enforced at all SO Events.

This Policy applies to:

- All skaters, officials, coaches, Member Clubs and Skating Schools
- All SO Participants

This Policy is to be read in conjunction with the Skate Canada Incidents of Injury Reporting and Management Policy and supporting procedure, the SO Removal-from-Sport Protocol and the SO Return-to-Sport Protocol, and the Government of Ontario’s Concussion Awareness Resources.

Definitions

Concussion:

- is a brain injury that causes changes in how the brain functions, leading to symptoms that can be physical (e.g. headache, dizziness), cognitive (e.g. difficulty concentrating or remembering), emotional/behavioral (e.g. depression, irritability) and/or related to sleep (e.g. drowsiness, difficulty falling asleep)
- may be caused either by a direct blow to the head, face or neck, or a blow to the body that transmits a force to the head that causes the brain to move rapidly within the skull
- can occur even if there has been no loss of consciousness
- cannot normally be seen on X-rays, standard CT scans or MRIs
- can result in symptoms that are evident immediately or may evolve and persist over the course of hours, days or even months.

Designated Person:

At each SO Event SO will name a “designated person(s)” who will have the following responsibilities:

In accordance with Rowan’s Law, under the Removal-from-Sport Protocol for SO, the designated person(s) is/are responsible for ensuring that:

- A skater is immediately removed from further training, practice or competition if the skater has sustained a concussion or is suspected of having sustained a concussion, regardless of whether or not the concussion was sustained from a sport activity associated with SO

Concussion Policy

- If in the opinion of the designated person(s), there is an emergency and/or any red flag signs and/or symptoms appear – including those resulting from a suspected concussion, call 911;
- Removal of the skater from further training, practice or competition; and if the skater is under 18 years of age, the parent or guardian is informed of the removal
- The skater, or the parent or guardian if the skater is under 18 years of age, is advised that the skater is required to undergo a medical assessment by a physician or nurse practitioner before the skater will be permitted to return to training, practice or competition according to the Return-to-Sport Protocol
- A skater, or if the skater is under 18 years of age, the skater's parent or guardian, receives the Removal-from-Sport and Return-to-Sport Protocols for SO as soon as possible after the skater's removal
- Once removed, the skater is not permitted to return to training, practice or competition, except in accordance with the Return-to-Sport Protocol

In accordance with Rowan's Law, under the Return-to-Sport Protocol for SO, the designated person(s) is/are responsible for ensuring that:

- A skater who has sustained a concussion or is suspected of having sustained a concussion does not return to training, practice or competition until permitted to do so in accordance with the Return-to-Sport Protocol
- When a skater has not been diagnosed with a concussion, the skater is only permitted to return to training, practice, or competition if the skater, or if the skater is under 18 years of age, the skater's parent or guardian, provides confirmation to the designated person(s) about the outcome of the skater's medical assessment, specifically that the skater:
 - has undergone a medical assessment by the physician or nurse practitioner and has not been diagnosed as having a concussion, and
 - has been medically cleared to return to training, practice or competition by a physician or nurse practitioner
- When a skater is diagnosed by a physician or nurse practitioner as having a concussion, the skater is not permitted to move on to unrestricted training, practice or competition unless the skater, or if the skater is under 18 years of age, the skater's parent or guardian, provides a confirmation of medical clearance by the physician or nurse practitioner to the designated person(s)
- A skater is not permitted to return to training, practice or competition through the graduated Return-to-Sport Protocol steps unless the skater, or if the skater is under 18 years of age, the skater's parent or guardian, has shared the medical advice or recommendations they received, if any, with the designated person(s)
- When a skater is diagnosed by a physician or nurse practitioner as having a concussion, the skater, or if the skater is under 18 years of age, the skater's parent or guardian, has been informed of the importance of disclosing the diagnosis to any other sport organization with which the skater is registered or school that the skater attends
